tested because he felt that I was at risk of developing osteoporosis at a later age so he does the test my levels come back low he decides he wanted to petition to the GEO corporate office to see if they would approve for him to replace the hormone after 2 weeks the corporate office approves my request so he decides to order me to take a injection every two weeks well 1 month prior to this Dr. Sami Muslim does blood work on me at my request and diagnosis me with hepatitis C well I take this hormone injection every ~~2 weeks~~ ~~2 weeks~~ (2) for six months well the 2nd week of March ²⁰¹⁹ I am schedule for my injection I get called down to medical at 8:00 pm and the LPN administrators the shot as I'm walking out of medical I instantly start to feel sick well I go back to my pod on 3-A-108 well I feel like I develop a cold and I'm ILL in my cell well a week passes by and I haven't got any better Matthew Bell Inmate 3-A-118 cell ask me if I'm feeling ~~ok~~ and tells me I'm looking like I'm turning yellow so I go down to medical medical turns me away so I go back to my unit upon entry officer McGowen also tells me I'm looking yellow so she calls Sgt ~~McGowen~~ ^{Turner} who also tells me I'm turning yellow and walks me down to medical the nurse on Duty holds a yellow post it up next to my ~~right~~ eye balls and seizes my eyes are yellow by this time I hadn't had a bowel movement in over a week I couldn't hold

(2)

any food and my ~~urine~~ ^{urine} is red and my skin is yellow so they call the Dr. not sam-musulin a new Dr. he decides to put me in medical observation so I stay the night in medical the next morning I see nurse Erica tuckwell she is taking my blood and she tells me to please just "shut up" and let me help you because your yellow I ask her if I'm going to die she tells me she didn't know well next I see a new Dr. he checks my liver and my skin & eyes and tells me I'm suffering from a liver flare up which is making me Jordan's and he tells me my liver has shut down and that was why I hadn't had a bowel movement couldn't eat and why my urine was red he tells me he was surprised I was still alive he told me if I wanted to beat this thing and ~~survive~~ survive this thing I needed to stay hydrated and he ~~too~~ released me to go back to my unit after he ordered my blood work well the next day he called me back to medical he tells me my blood work has come back he tells me that my normal liver enzymes are supposed to be between 50 and 55 but my enzymes are 1850 ~~1850~~ (one thousand eighteen hundred and ~~55~~ fifty) he tells me to stop taking all my medications and he tells me he would let me know something in a day or 2 so I go back to my unit that night nurse alisa brunmet comes to the unit to pass out hop meds I ask her if she heard anything she tells me that I was getting shipped to Lindsay doc hospital and

(2)

They think I have stones in my Liver ~~water~~
 which is where pieces of my Liver has died and
 hardened well the next day I got shipped to Lindsay
 DOC Hospital when I got there I stay the night
 the next morning I see Dr. Emery he orders blood work
 he tells me my Liver enzymes are over 1800 and he
 believed my Liver had shut down he told me that
 I was lucky I didn't die he told me he believed
 Dr. Sam-musalmi made a error in Judgment he
 said he put me on a testosterone Injection knowing I
 had Hep-C was wrong he said he ~~never~~ said
 testosterone Injections are known to destroy the Liver
 that it happens with professional athletes all the
 time he said that Dr. Sam-musalmi knowing put
 me on a Injection with Hep-C and Jeopardized
 my life he said Dr. Sam-musalmi new better
 them to put me on the Hormone Injection and
 and by him doing it it was medical
 negligence on his part and that I should take
 Legal action well Dr. Emery put me on a
 Banan bag and gave me a ultra sound the
 next morning he checked my enzymes again and
 told me my enzymes were down to 900 and if
 the ultra sound showed blood flow in my Liver
 he would release me to go back to the prison
 he told me ~~he~~ I was very lucky and
 - my Liver would never be the same
 - the DOC has a Hep-C treatment
 - I didn't qualify because I was so close
 to home he told me if I plan

(4)

to live a normal life I would have to seek the Hep-C treatment because of the significant damage this incident had caused ~~████████~~ and Dr. Emery told me he believed that this incident took years off my life well later that day I went back to Lawton correctional facility where later I find out Dr. Sam-muslim does not work any more I feel Dr. Sam-muslim is responsible for me almost dying because he knowingly prescribed me a ~~testosterone~~ testosterone injection knowing I had Hep-C
